CAMP INVENTION

Imaginations get their rocket fuel at Camp Invention! An exciting, weeklong summer adventure awaits with activities that explore connections between science, technology, engineering, and innovation while sharpening 21st century STEM skills. A program of the National Inventors Hall of Fame, [Camp Invention](#) allows children entering kindergarten through 6th grade to experience real-world problem solving, creative thinking, invention, and teamwork. Children work together to transform the terrain and ecosystem of a distant exoplanet. They take risks as budding business owners, blast rockets, air cannons, and rubber chickens, and wire a circuit to create their own Spy Gadget Alarm Box! Local, certified educators lead a week of hands-on activities that fuel children's confidence in their natural ability to dream and create.

Camp Invention will be held at Corydon Intermediate School from 9:00-3:30 the week of June 12-16. South Harrison Community School Corporation has made it possible to register your child for this amazing experience for only \$100! Registration after March 31 will be \$125. Registration MUST be done by calling 800-968-4332. If you have questions, please contact Camp Director, Abby Coffman abby@eckart.com. More information can be found on our Facebook event page at <https://www.facebook.com/events/630172427143265/>. Camp Invention will fill up—do NOT miss out on this exciting opportunity!
